EDUCATION

Computer Science (2019-2023)

University of St. La Salle
Bacolod City, Philippines

- Graduated with Academic Achievement Award
- Google Developer Student Member

SKILLS

Soft Skills

- Creativity
- Critical Thinking
- Teamwork
- Communication
- Time Management

Technical Skills

- UI/UX (Figma)
- Mobile Development
  (React Native, Node.js, Java, Android Studio)
- Web Development
  (HTML, CSS, Php, MySQL, PostgreSQL)
- Game Development
  (C++, C#, Unity 2D/3D, Blender)
- Data Analysis
  (Tableau & PowerBI)

ABOUT ME

As a Computer Science graduate, I have a strong academic background as well as a strong interest in technology-driven solutions. My educational experience has provided me with a solid foundation of computer science principles, enhancing my ability to tackle complicated problems analytically. Eager to maximize my talents and successfully contribute to unique initiatives while continually embracing learning opportunities in the ever-changing digital industry.

WORK EXPERIENCE

(Freelance) Junior Full Stack Developer   2023
ChuGo Pte Ltd l Singapore

As a junior full-stack developer, I contributed to the development of the Challenger Student Application, specifically designed for Singaporean students. My responsibilities included utilizing React Native to build the frontend and implementing Node.js for the backend, while integrating Firebase and PostgreSQL databases into the application's architecture.

Thesis   2023
Title: 3D Motion Captured Using Pose Detection Algorithm

The study is focused on the development of a tool that captures motion from a video file and converts it into a 3D animation file.

The tool's goal is on the animation data, therefore when the animation file is exported, it will produce a basic 3D model for every animation.

Student Intern (Full Stack Developer)   2021 - 2022
IReply Back Office Services. Inc. l Bacolod City

I achieved several significant accomplishments during my On-the-Job Training (OJT) as a Full Stack Developer intern, acquiring a comprehensive understanding of the entire software development life cycle.

Honed my technical skills in web development by utilizing the Laravel framework and Vue.js while developing an HRIS (Human Resource Information System) website for the employees of the company.

SEMINARS & WORKSHOP

- Augment Time Series Workshop: Using TABLEU and WEKA for Data Visualization and Machine Learning (March 24, 2023)
- Augment Lecture Series Webinar: Reimagining Research Using Machine Learning (February 17, 2023)
- Google Webinar: Google: Firebase Cloud Computing
- GDG Devfest Ayala (November 16, 2020), Ready, Set, Grow
- SIDE QUEST: Game Development Workshop (September 5, 2019), 2D Game Art Workshop
